

Superintendent Losquadro, Councilwoman Bonner Announce Completion of 16-Road Rocky Point Paving Project

posted on 7/31/2017 10:28:00 AM

Rocky Point, NY – Brookhaven Town Highway Superintendent Daniel P. Losquadro and Councilwoman Jane Bonner have announced the completion of a 16-road paving project in a residential Rocky Point neighborhood.

While this project did not involve any concrete work, 45 drains were repaired or replaced before milling and paving could begin. The total cost for this paving project was \$390,000.

Roads resurfaced during this paving project, include: Aloma Road, Azur Road, Corona Road, Floral Road, Mars Road, Misty Road, Nimbus Road, Pearl Road, Phoenix Road, Pigeon Road, Shell Road, Sky Road, Somerset Road, Sunburst Drive, Surf Road and Woodlawn Road.

“Maneuvering milling and paving equipment to complete this project posed a bit of a challenge due to the narrow and hilly roadways in this area,” said Losquadro. “But, residents and motorists who travel these roads on a daily basis can now enjoy a safer, smoother ride thanks to the diligent work of the men and women of the Brookhaven Highway Department.”

Councilwoman Bonner said, “Rocky Point residents can drive again with confidence knowing that these roads are much safer now that they are repaved and drainage is improved. I thank Superintendent Losquadro and the Highway Department for the important work they do in my district and throughout the Town.”
